Dear Sir:

Prior to examination of the RCE (Request For Continued Examination) for the
above-identified application, please amend the application as follows:

IN THE CLAIMS:

Please add the following new claim:

*Sub
D6* -- 18. A liquid crystal display having a liquid crystal display panel configured

by sandwiching liquid crystal between a pair of substrates, wherein:

a plurality of pixels are provided within said liquid crystal display panel,

each of said plurality of pixels being separately assigned to one of R, G, and B colors;

individual pixel electrodes are formed for each of said plurality of pixels

on one of said pair of substrates;

R, G, and B driving signals corresponding to each of said pixel electrodes

are applied for driving the liquid crystal by the potential difference between said pixel
